

Mouli V

Python Full Stack Developer | Generative AI & RAG

✉ mouli.v598@gmail.com ☎ +91 8639598444 📍 Bengaluru, India

SUMMARY

Python Full Stack Developer with 4.5+ years of experience building production Generative AI and RAG systems. Currently architecting an enterprise-grade agentic chat platform on FastAPI, LangChain and LangGraph, with a background spanning full stack Next.js development and multi-cloud migrations across Azure, AWS and GCP.

EXPERIENCE

Senior Software Engineer · ITC Infotech

Feb 2024 — Present

Bengaluru, India

- Architected an enterprise RAG chat platform using FastAPI, LangChain, LangGraph, the AG-UI protocol and CopilotKit.
- Migrated 30+ AI agents from Streamlit to a FastAPI + Next.js architecture.
- Led cloud migrations from Azure to AWS and from Azure to GCP.
- Built asynchronous agent workflows with Celery and Redis, backed by PostgreSQL with pgvector for retrieval.

Frontend Engineer · Binder-sa

Jul 2023 — Feb 2024

Remote, Saudi Arabia

- Developed and maintained frontend features for a B2B procurement platform.
- Used Redux Toolkit to manage complex, multi-step procurement workflows.
- Integrated a GraphQL API with typed queries across the application.

Senior Software Engineer · Onward Technologies

Nov 2021 — May 2023

India

- Contributed to CAT Fleet Management, an enterprise fleet tracking application built for Caterpillar.
- Contributed to Cash Management / DCS, a micro-frontend platform built for FlyDubai.

SELECTED PROJECTS

K-Fabrik — Enterprise RAG Chat Platform

Enterprise-grade Retrieval-Augmented Generation platform that lets teams query internal knowledge and run multi-step agent workflows through one conversational interface.

AI Portfolio with a RAG Assistant

This site: a Next.js and FastAPI portfolio with a built-in AI assistant that answers questions about my work using retrieval over my own profile.

Cash Management / DCS

Micro-frontend cash management system delivered for FlyDubai while at ITC Infotech.

Binder — B2B Procurement Platform

B2B procurement platform built remotely for a Saudi Arabia based company, with a type-safe Next.js frontend over a GraphQL API.

CAT Fleet Management

Enterprise fleet management application delivered for Caterpillar while at Onward Technologies.

SKILLS

AI & LLMs	LangChain, LangGraph, LlamaIndex, RAG, AG-UI Protocol, CopilotKit, Azure OpenAI, AWS Bedrock, Vertex AI
Backend	FastAPI, Pydantic, SQLAlchemy, Celery
Languages	Python, TypeScript, SQL
Data	Redis, PostgreSQL, pgvector, GraphQL
Frontend	Next.js, React, Redux Toolkit, Tailwind CSS
Cloud & DevOps	Docker, Kubernetes, Terraform, AWS, GCP, Azure, GitHub Actions
Testing	Pytest, Jest

EDUCATION

 **B.Tech, Computer Science and Engineering**
JNTU College of Engineering, Ananthapur · 2021
